

How to make a Flapping bird

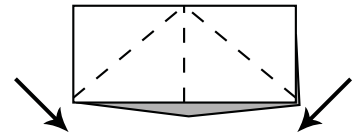

1. Fold into a triangle. Unfold, then fold other triangle.

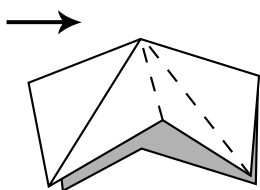

2. Turn over, fold rectangle. Unfold.

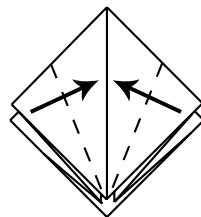

3. Fold other rectangle.

4. Push down to form square. See next step.

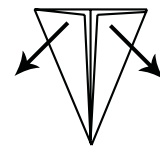

5. Like this

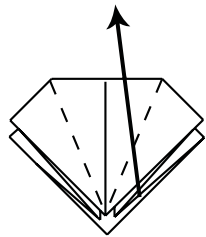

6. Preliminary base. Fold all layers inward like a kite

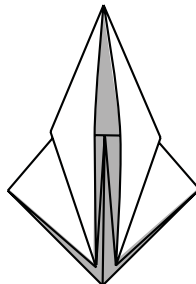

7. Mountain fold top

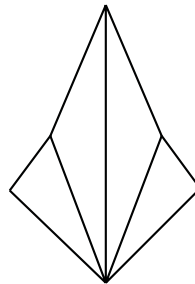

8. Open out side layers.

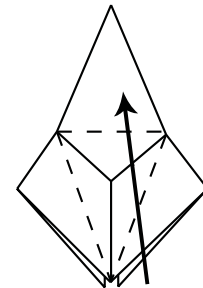

9. Lift top layer only to form diamond.

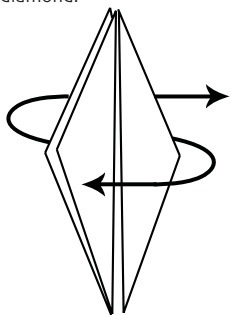

10. Like this.

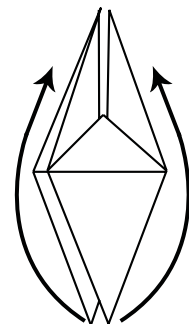

11. Diamond is complete. Turn over.

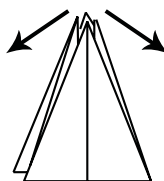

12. Repeat step 10.

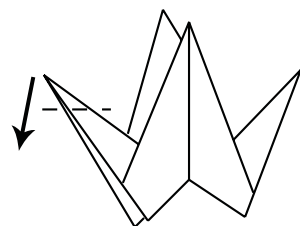

13. Fold top layer to the left and repeat on the back.

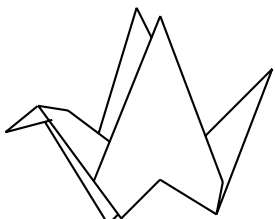

14. Lift bottom point up. Repeat in back.

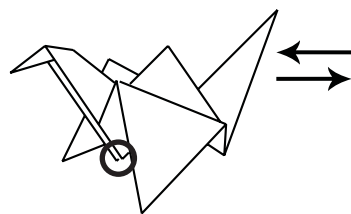

15. Pinch and pull side flaps out. Press them flat.

16. Form head with inside reverse fold.

17. Finished. Now to make it fly...

18. Pinch at the circle with one hand. Bend wings forward over your fingers. Then with the other hand, pull tail in and out to make the wings flap.
